

Company Quality Policy

It is the policy of Alucast Limited to manufacture and machine aluminium castings to comply with Customer Specific Requirements in accordance with ISO 9001:2015 and IATF 16949:2016 standards. Our aim is to meet the requirements of our customers as well as our statutory, regulatory, health and safety and environmental requirements.

The management team establish the quality objectives and KPIs which strive to improve the quality management system in all relevant functions, levels and processes required to meet the strategic direction of the business. The management team provide a framework for setting quality objectives. These are documented and in line with the following:

- They are measurable.
- They take into account the requirements of our customers.
- Our products and services are continually reviewed, to enhance our customers' satisfaction and meet all interested parties' expectations where appropriate.
- Objectives are monitored, reviewed and communicated to all Alucast's employees.
- Alucast continue to review the planning requirements of the quality objectives, which determine what needs to be done, who is responsible, the resources required, when they will be completed and then evaluate the results for continuous improvement purposes.
- We provide the most appropriate solutions to our customers, through assessment of their needs and demands and to consult with them. Alucast has a commitment to satisfy their requirements with our casting and machining expertise and experience.
- We continually improve the effectiveness of the quality management system which is monitored and managed at all levels.
- We apply efficient and effective management of the company human resources that helps the realisation of projects in advance of set deadlines, ensuring that they conform to our quality standards.
- We prioritise and value Alucast's most valuable asset, its employees, and contribute to their technical and self-development through the company's continuous learning environment.

This policy is reviewed annually at the management review meetings.

A.E. Sartorius
Chairman
